Digvesh A Parab
Software Developer

✉ digveshparab123@gmail.com ☏ +91-7776068629 ◈ *https://github.com/Diggi19* ◉ *Porvorim,Goa,India*

Passionate software developer with 1 year of experience as a developer, experienced in frontend and backend development, database design, and user experience. Possesses a strong grasp of software development life cycles and agile methodology. Known for being a detail-oriented, organized, and meticulous employee Works at fast pace to meet tight deadlines. Enthusiastic team player ready to contribute expertise in high-quality software solutions.

Experience

Junior Software Developer at Simplit Software Solutions *Aug 2023 - Present*

- Developed components for Goa College of Engineering's academic task handling system, improving user experience through responsive design and optimizing Fee payment, Exam registration, and Student semester registration.
- Collaborated with backend team, reducing data retrieval time to few seconds and optimizing data flow.
- Contributed to successful project deployment, gaining expertise in production and adeptly resolving technical challenges.
- Enhanced non-technical skills: excelling under pressure, effective negotiations, and in-depth client research.These skills optimized user experience and strengthened project outcomes.

Finance Data Visualization Application for Goa Govt - Freelancing project *Aug 2023 - Present*

- Led the creation and development of an interactive web application, streamlining user authentication and access. Provided an in-depth overview of government department finances.
- Engineered functionality allowing users to seamlessly toggle between actual and estimated budgets, enabling detailed analysis of individual departments and empowering simultaneous comparative analysis of multiple departments within an intuitive graphical interface.
- Implemented robust forecasting features within the platform, providing users with predictive insights into budgetary trends, thereby supporting informed decision-making processes for financial planning and resource allocation.

Skills

Technical

Frontend

- Javascript
- Typescript
- REST API's
- Redux
- JSON

Backend
- Django
- Node.js
- Express.js

Database
- MongoDB
- SQL Server
- Postgres
- GraphQL

App Development
- React Native
- Flutter

Design
- Adobe XD
- Figma

DevOps
- AWS

Languages
- Python
- Java

Project Management
- Jira
- Slack
- Clockify

Version Control
- GIT

Non - Technical
- Interpersonal Skills
- Team Player
- Problem Solving
- Adaptability and Willingness to Learn
- Composed Mindset
- Effective communication
- Fast Learner

Competencies
- Software Lifecycle
- Agile Methodology
- Collaboration
- Continuous Learning
- Database and Algorithm

Education

Goa College of Engineering *June 2019 - Aug 2023*
- Bachelor of Engineering
- Major in Electronics and Telecommunication - GPA: 8.6
